2009Next is the result of fine developments of our top of range creation 2009new chair, conceived to continue a legacy of successes and achievements with a brand new fashionable look.

2**009Next** stands out for its elegant lines, purity of design and compactness of shapes and forms.

Refined materials and stylish design combined with solid structure, based on polyurethane and metal ensure high reliability and top-level performances for the most exhigent professionals.

White and pure thermoformed soundproof rear base and front cover give light and freshness to the chair shilouette.

Smooth and rounded surfaces ensure easy disinfection and deep hygiene.

An intuitive joystick placed on the base allows for hands free functions control, to easily acheive proper treatment position avoiding cross contaminations.

A large range of possible customizations enhances the functionality and aesthetic of this high-class patient chair, with many functional and fine details: Armrests, different models of ergonomic headrests, upper body with left/ rear/ or no drilling, Trendelenburg, rotation, unit and lamp bracket, programs, different polyurethane choices, upholsteries in standard-, memory- or soft foam version.

2009Next will luxuriously take you from history to a future of success.

Class		B	

HEADRESTS

Tecnodent manual Headrests are available in 6 different models: ELLE/ELLE2 MOBILE, UNI, Light, COMFORT and VALE.

Each headrest has been conceived for meeting every operator’s need.

ELLE/ELLE2. ELLE/ELLE2 MOBILE is a double articulated headrest, which allows for regulation of height with lever and inclination with push-buton.

ELLE/ELLE2

C95

C2002

Magnetic pillows. ELLE/ELLE2 headrest can be combined with magnetic pillow C95 or C2002. Either pillow can be also applied directly on the backrest, for ensuring a better comfort, independently of the patient’s height.

UNI

COMFORT

Light

UNI, COMFORT and Light. The UNI, COMFORT and Light headrests are multi-articulated and allow for regulation of the headrest alogn th3 three axis (height, depth and tilt).

VALE

VALE is a double articulated headrest with enveloping cushion, allows for regulation of height with lever and inclination with push-buton.
